FARMERS and AGRIPRENEURS

WELCOME TO

AgDFS Expo 2026

The only event in Nigeria — and one of the few in West Africa — dedicated to connecting digital financial services with agriculture.

Exhibitors gain direct access to farmers, agribusinesses, government officials, development organisations, investors, banks, fintechs and insurers shaping the future of agri-finance.

THE MISSION

To accelerate adoption of digital financial services in Nigerian agriculture by creating the premier platform where every stakeholder connects, discovers and transacts.

Why AgDFS Expo 2026 — and Why Now?

- 1 Financial Inclusion** — Accelerate access to finance for rural and farming communities.
- 2 Digital Payments** — Mobile money is unlocking new agri-fintech opportunities.
- 3 Food Security** — Limited farm finance continues to constrain domestic production.
- 4 Government Priority** — Agricultural finance remains central to national strategy.
- 5 Growing Agri-Fintech** — New solutions tailored specifically for farmers.
- 6 Development Funding** — Major donors increasing investment in agri-finance.
- 7 Farmers' Pensions** — PenCom Personal Pension Plan opens formal retirement savings. Retain personal pension plan. The micropension plan has been phased out by PenCOM

Exhibition Hall — Six Focused Zones**Zone A — Agricultural Credit and Lending
WHO EXHIBITS HERE**

Commercial banks (agri-desk units), microfinance banks, development finance institutions and cooperative finance bodies.

WHAT FARMERS and AGRIPRENEURS DISCOVER

WHAT FARMERS and AGRIPRENEURS DISCOVER

Technology tools that enable financial service delivery to farmers and improve creditworthiness assessment.

Conference Programme · Farmer Zone · Who Should Attend

Three parallel tracks across three days, a dedicated farmer engagement zone, and a focused audience of every stakeholder in Nigerian agricultural finance.

Track A — Policy and Regulation

Government policy, regulatory frameworks and public programmes

- CBN financial inclusion targets
- NIRSAL's evolving role
- State agri-finance programmes
- Agricultural Credit Guarantee Scheme
- Regulatory sandbox for agri-fintech

Track B — Products and Innovation

Emerging financial products, services and technologies

- Weather-index crop insurance
- Digital collateral for smallholders
- AI-driven credit scoring
- USSD-based savings products
- Supply chain finance models

Track C — Investment and Scale

Attracting domestic and international capital

- DFI and donor funding landscape
- Impact investment in agri-finance
- De-risking mechanisms
- Measuring ROI in agri-finance
- Scaled agri-finance case studies

Farmer and Agripreneur Zone

Direct engagement with the primary beneficiaries of every financial product on display.
